BIOGRAPHICAL DICTIONARIES MASTER INDEX 1975-1976

A GUIDE TO MORE THAN 800,000 LISTINGS IN OVER FIFTY CURRENT WHO'S WHOS AND OTHER WORKS OF COLLECTIVE BIOGRAPHY. First Edition. Three Volumes. Edited by Dennis La Beau and Gary C. Tarbert. Introduction. Key to Publication Codes. CIP: L.C. Card No. 75-19059. ISBN 0-8103-1077-5. \$65.00/set.

A unique key to over 800,000 entries in more than 50 current biographical dictionaries, Gale's new *Biographical Dictionaries Master Index* fills a long standing need for a single index to data on people in all fields. The emphasis of the works indexed—and hence of *BDMI*—is on living persons who are prominent in the U.S. scene. Each entry indicates the individual's name, dates of birth and death (if given), and a code indicating the source.

BDMI tells users which edition of which publication to consult; or, almost equally as helpful, it reveals that there is no listing for a given individual in any of the dozens of publications indexed. In cases where *BDMI* has multiple listings for the same person, the searcher is able to choose the source that is most convenient, or to locate multiple sketches for comparison.

"Anyone who has searched for biographical data—whether or not the search was successful, but even more so if it was not—will welcome this *Master Index*. The publisher, a distinguished leader in reference book publishing, is to be commended for making such a compilation available . . . *BDMI* is not just one of the year's outstanding reference books, it is essential for all ready-reference collections." (Glenn R. Wittig, *RQ*, Winter, 1975)

Among the over 50 sources indexed in *BDMI* . . .

- *Who's Who of American Women*
- *Leaders in Education*
- *Directory of American Scholars*
- *American Architects Directory*
- *Who's Who in World Jewry*
- *Who's Who in America*, plus all the Marquis regional who's whos
- *Who's Who in Government*
- *New York Times Biographical Edition*
- *Biography News*
- *Who's Who in the Theatre*
- *Canadian Who's Who*
- *Living Black American Authors*
- *Contemporary Authors*
- *Celebrity Register*
- *American Men and Women of Science*
- *Current Biography*
- *Congressional Directory*

Updated editions of *BDMI* will be issued at two-year intervals, as new editions of the sources indexed are published and as new biographical dictionaries become available. A standing order for *BDMI* will assure you of receiving each new edition automatically.

BOOKS FOR COLLEGE LIBRARIES

SECOND EDITION

Compiled by the Association of College and Research Libraries, a division of ALA, with the support of the Council on Library Resources.

Six handsome paperbound volumes:

1. Humanities, 2. Language and Literature, 3. History, 4. Social Sciences, 5. Psychology, Science, Technology, and Bibliography, 6. Author, Title, and Subject Indexes

For this Second Edition, nearly 40,000 titles—four-fifths of those recommended by the 1959 ALA standards as the minimum for a four-year undergraduate library—have been selected and evaluated by subject specialists. Selections have been made from titles in the first edition and from works published between 1964 and 1972. An even greater breadth of sources has been used than before and even more stringent criteria have been applied to selections for this core collection.

Cataloging and classification information has been expanded. Titles are arranged according to Library of Congress classification and are entered in the main catalog only once. Each entry is a virtually complete MARC record: author, title, edition, imprint, collation, subject and other added entries, classification number, LC card number, and ISBN.

The New York Times Biographical Service

the only reference providing
profiles of people who make the news
while they're making it!

A subscription to the
BIOGRAPHICAL SERVICE provides you with:

- Monthly profiles—over 2,000 a year—reproduced exactly as they appear in THE NEW YORK TIMES and the SUNDAY TIMES MAGAZINE, including nationally and internationally prominent personalities in all walks of life, unknowns who suddenly make the news, and controversial figures other biographical services may not cover at all.
- In-depth studies written in the context of the news that probe the news-maker's background.
- A convenient looseleaf format enabling you to file new profiles in numerical or alphabetical order.
- Cumulative indexes every six months—allowing you to pinpoint any profile when you need it.

Annual Subscription—\$78.00

Looseleaf binders (two binders hold a year's supply of profiles)—\$7.50 each

The comprehensive Encyclopedia of Computer Science will be much more than a useful handbook, dictionary, or glossary—it will be the basic reference for both non-specialists in computer science and for specialists in those areas in which they are not expert. With 208 contributors and over 470 topical areas, the Encyclopedia provides a basic reference to computer science as well as a broad picture of the discipline, its history, and its future directions.

The excellent cross referencing of topical areas and the bibliographic references allow for either a brief view of subjects or a gradation of in-depth examinations.

If you've ever had a question in the computer science area but didn't have a handy source of information, then you'll appreciate this Encyclopedia. And because it has been prepared with an eye on the future, its useful life as a reference can be measured in a sizeable number of years.

Take advantage of the special prepublication discount and save \$10.00 by ordering now. The discount price of \$50.00 will remain in effect until June 30 at which time it will be priced at \$60.00.
